

CARDIFF UNIVERSITY/BRAPP POSTGRADUATE COURSE IN PHARMACEUTICAL MEDICINE

ENTRY FEBRUARY 2021

Course details

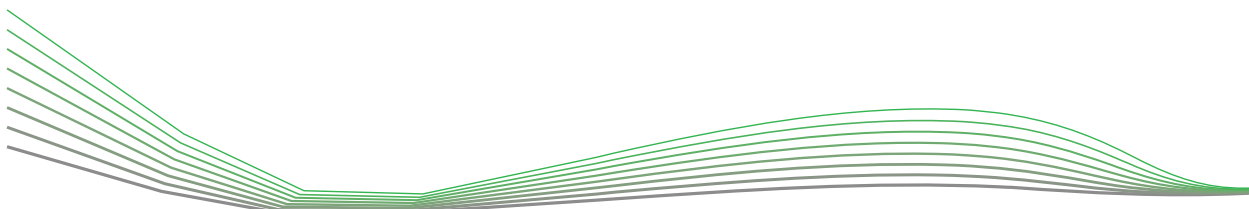

The PostGraduate Course in Pharmaceutical Medicine (PGCPM) is a 10-session, knowledge-based, taught course jointly organised by BrAPP (British Association of Pharmaceutical Physicians) and Cardiff School of Pharmacy and Pharmaceutical Sciences, Cardiff University. The Course is designed as an entirety and sessions are not available on a stand-alone basis. It provides delegates with a broad overview of the speciality of pharmaceutical medicine.

The purpose of the Course is **two-fold** :

- 1) To educate physicians working for, in or on behalf of the pharmaceutical industry in all aspects of pharmaceutical medicine. Understanding the drug development process is crucial for future advisors, managers and leaders.
- 2) To prepare candidates for the Diploma in Pharmaceutical Medicine (DPM) examination. The Course curriculum and that of the DPM are based upon the syllabus developed by PharmaTrain*.
*PharmaTrain is a European/global initiative to improve professional training.

Course description

The PGCPM delivers sections of the Pharmatrain syllabus in **nine sessions** over an 18-month period. The **10th** is a comprehensive **Revision and Review Session** that reprises aspects of the Course and further prepares candidates sitting the DPM. Based on considerable experience we believe that each session needs time to assimilate so that each participant can absorb and then utilise the information and knowledge gained to enhance their own base of knowledge of pharmaceutical medicine. This process is helpful in developing well-rounded career in the pharmaceutical industry.

Speakers and presenters

The course is led by Professor Madhu Davies, a highly experienced pharmaceutical physician and sessions are taught by a variety of experts. Crucially they represent a broad spectrum of industry professionals. Many contributors will have first-hand experience of UK and global pharmaceutical development, the DPM exam and are available during and between sessions to assist with individual learning issues.

Session content and delivery is regularly reviewed on an on-going basis. Delegate feedback and organiser moderation are used to enhance to quality of training.

Session timing

The *model* two-day session which takes place mid working week (Tuesday, Wednesday or Thursday) begins teaching at 09:00 and finish each working day by 17:00. In early 2021 the Course will be delivered through live online sessions. We do believe that face-to-face teaching is invaluable and we will seek to deliver some content if at all possible.

Session Plan

February 2021 – May 2021 (part 1)

- | | |
|--|----------------|
| 1) Introduction, Discovery of Medicines, planning the development of a medicine | 9 February |
| 2) Pre-clinical testing, lead identification, toxicology and safety pharmacology | 10-11 February |
| 3) Medical Statistics | 24-25 March |
| 4) Exploratory development: Phase 0 to IIA | 21-22 April |
| 5) Clinical Trials | 19-20 May |

October 2021- July 2022 (part 2)

- | | |
|--|--------------------------------|
| 6) Pharmacovigilance | 13-14 October |
| 7) Medicines Regulation | 17-18 November |
| 8) Information, promotion and education | 2-3 March 2022 |
| 9) Legal, finance, ethics and pharmacoconomics | 4-5 May |
| 10) Revision and Critical Appraisal | 12,13,14 July & 7
September |

Fees & Costs

Tuition Fees Part 1 (February to May 2021)

Tuition fees, payable in advance of commencement of teaching, **£4000 (GBP)**. This includes a £200 (GBP) deposit, payable at the time of registration and non-returnable. Tuition fees include all PGCPM materials – handouts, folders and, of course, speaker honoraria etc. Delegates, however, may attend sessions out of sequence and out of year, should their schedules require this. There will be no further tuition charges.

Venue Costs Part 1 (February to May 2021)

The organisers reserve the right to introduce venue charges should face to face teaching be reinstated. This is not anticipated in the first half of 2021.

Tuition Fees Part 2 (October 2021– July 2022)

Tuition fees, payable in advance of commencement of teaching, **£5520 (GBP)**. All Course material is included and **additionally** delegates attend a one-day Critical Appraisal Workshop in September 2022. Critical Appraisal comprises 50% of Paper 2 of the DPM exam and is a critical skill for all pharmaceutical physicians.

Venue Costs Part 2 (October 2021 to September 2022)

If face-to-face teaching has been reinstated then venue charges for attendance will be due. Participants will be advised of any changes in format of teaching and the fees which fall due.

PLEASE NOTE: Delegates are responsible for their own travel and accommodation (should any be required).

Payment methods

Payment should be made in GB Sterling by Bank Transfer (full bank details can be found on registration forms and invoices) to BrAPP. Tuition fees, as above, must be paid to enable a delegate to join the Course.

PLEASE NOTE: Once a delegate has finalised registration/commenced Part 1 or Part 2, the tuition fees for the entirety of the five sessions per year are non-refundable by BrAPP/Cardiff University.

For more information please contact Liz Langley (liz@brapp.org) or Sarah Perchard (sarah@brapp.org)
